DOES NOT DRUNK WINE
BUT TASTES OF ITS SECRETS"

Salvador Dalí 1904 - 1989

DEAR GUESTS

We have selected the wines on the following pages for you with much love, care and passion.

Whether you are our guest in the á la Carte Stuben or on the sun terrace or you are spending a few days at Hotel Riml - we will be happy to advise you at any time.

You will find many wines from Austria or the rest of the world, which in our opinion harmonize and taste particularly good at 2,200 m above sea level.

Whether it's a fresh peppery Grüner Veltliner from the Weinviertel, a specialty from the Wagram like the Roter Veltliner, or a Gelber Muskateller from Styria, you'll find something you already know and love or come across a new favorite, we're not worried.

Also the selection of red grape varieties, such as Zweigelt, Blaufränkisch or St. Laurent should definitely be added to your repertoire, because these are special varietal autochthonous grape varieties and red wines that will convince you.

Hotel Riml also has its own cuvées from the Toni Hartl winery in Burgenland. These were created by Toni Hartl and Gerold Riml here in Hochgurgl and are available in 2 vintages.

Of course, international classics were also tasted and included on the menu, these can be found on the next pages as well as open wines for enjoyment by the glass, half bottles or even sparkling wines.

Some wines are certified organic, have won awards or have special characteristics, which we have provided with labels. These labels should also help you in the decision to find the right wine. If you have any questions about a wine, do not hesitate to contact our service team.

You are welcome to enjoy a bottle over several days with us, we will be happy to put the opened bottle back and serve you the next day.

Our service team wishes you much pleasure in discovering, experiencing and enjoying these carefully selected drops!

Sincerely yours family Riml
